What If? - Lecture Notes

Contents

Welcome **1**
0.1 About this project 1
0.2 Navigation 1

Welcome

This is a Quarto book project based on the textbook "What If?" by Miguel Hernán and James Robins.

The notes are available in multiple formats:

- **HTML Book**: Navigate using the sidebar for a traditional book reading experience
- **RevealJS Slides**: Each chapter also generates a presentation format with `-slides.html` suffix
- **PDF Handouts**: Each chapter generates a PDF handout with `-handout.pdf` suffix
- **DOCX Documents**: Each chapter generates a Microsoft Word document with `.docx` extension

0.1 About this project

These lecture notes follow the structure and content from What If? by Hernán MA, Robins JM[1].

0.2 Navigation

Use the sidebar to navigate between chapters. Each chapter is available as: - A traditional HTML page (click the chapter name) - RevealJS slides (add `-slides.html` to the chapter URL) - PDF handout (add `-handout.pdf` to the chapter URL) - DOCX document (replace `.html` with `.docx` in the chapter URL)
